WARRANTY | HARDWOOD

LIMITED LIFETIME STRUCTURAL WARRANTY / LIMITED 30 YEAR RESIDENTIAL SURFACE FINISH WARRANTY / 5 YEAR COMMERCIAL SURFACE FINISH WARRANTY

Thank you for your new hardwood purchase. We make every effort to ensure your complete satisfaction by manufacturing to the highest quality standards. Every strip goes through numerous quality inspections not only during production, but also prior to packaging and shipping.

The warranty described below is solely extended to the original purchaser and is subject to the procedures, limitations, disclaimers and exclusions set forth herein. This warranty covers only approved product applications as recommended by the Manufacturer.

Our products are not warranted against squeaking, popping or crackling when using staple down or nail-down installation methods. Some squeaking, popping or crackling is normal and possible when using staple-down or nail-down installation methods. These symptoms may be aggravated in arid areas, use of an OSB subfloor or during dry conditions.

MOISTURE AND HUMIDITY - READ THIS PRIOR TO INSTALLATION

Room temperature and humidity of installation area should be consistent with normal, year-round living conditions for at least a week before installation of wood flooring. Room temperature of 60-80°F and a humidity range of 35% - 55% should be maintained during acclimatization, installation, and at all times afterward. Warning - humidity levels below these recommended levels will likely cause movement in the flooring, including gapping between pieces and possible cupping and checking in the face.

The Manufacturer cannot be held responsible for site conditions. Flooring formats, such as plywood based engineered wood flooring, are particularly susceptible to showing movement such as edge/end shrinking and face checking from relative humidity below the stated minimums on site and/or tip raising and subsequent end shrinking if installed over a wet subfloor.

PRE-INSTALLATION WARRANTY

The Manufacturer warrants to the original purchaser that each of these products meets our quality standards. You and/or your Installer should carefully inspect the material before installation. Since wood is a natural product, there are possibilities for variation in color, tone and grain. Such variations are not covered by this warranty. Please note that all hardwood floors have a cutting waste tolerance of 10%.

Wood is a natural, living material that reacts to the surrounding environment, it is possible that certain factors (e.g., unusual humidity levels {too dry or too wet}, improper installation, improper handling, a lack of acclimatization, moisture {too dry or too wet}, etc.) may cause cracks, face checks, and/or splits to appear in certain boards of your floor. Boards with cracks, face splits, and/or splits must be put aside for replacement for warranty coverage to apply. Once floor boards are installed, warranty coverage is no longer applicable because cracks and/or splits may result from various external factors out of the manufacturer's control.

LIMITED STRUCTURAL INTEGRITY WARRANTY FOR AS LONG AS YOU OWN YOUR FLOORS

The Manufacturer warrants to the original retail purchaser of its products that the flooring material, in its original manufactured condition, shall be free from manufacturing defects in milling and grading for as long as you own your Flooring (except as otherwise noted below).
