- Expansion Space: 1/4" gap
- No transitions required in rooms under 6,400 sf\*\*
- Transitions not required through doorways\*\*

**Read Complete Instructions Before Installing**

**ATTENTION:** The Rustic\* colors (Dillon, Raylan, Holliday, and Eastwood) have special characteristics that affect installation. These characteristics may not be featured on samples, so please review the below graphic and image to understand the multiple plank pattern visuals in this collection.

Plan your layout ahead. Stagger the end joints and avoid placing 2 identical planks next to each other in order to achieve a random and natural look. See example below.
