Why Heartland?

For those desiring better wood visuals than the traditional hard surface options, look no further. The Heartland collection is an excellent alternative, providing high-end, realistic wood visuals at a great value. This flooring also features a painted bevel, enhancing each plank and creating a greater dimensional effect throughout. Its AC3 wear surface provides an upgrade in scratch resistancy in comparison to SPC flooring. All together, Heartland creates for a premium wood experience and is a great flooring option for new-home construction.
